**PUBLIC SERVICE
COMMISSION**

Dear Mr. Goss,

In reference to the proposed hearing for rate increases for LG&E and KU for our gas and electric service. I for one find this totally unacceptable and believe it is totally irresponsible for LGE Energy to request these rate increases. It is the responsibility of our energy providers to supply us as consumers with a cheap, reliable product. While they continue to do this they also spend a large amount of revenue in advertising to a captive market and spend to sponsor sporting and other events in the community. I do believe that sponsoring local events is very important from the corporate community but asking for increases from the consumer while spending in this manner should not be allowed. I respectfully request that these increases be refused.

Sincerely,

Carlton W Skaggs
